What you get in the colorful display box:

- One Helium Filled Cylinder
- One set yellow balloon adapter valve.
- One "EMPTY" label
- Directions in English and Spanish

SPECIFICATION AND TECHNICAL DATA SHEET – ITEM: 99095HEK

ISO9001:2015

GENERAL DESCRIPTION: A single non refillable Helium gas filled cylinder with integral valve and 2pc gas dispensing adapter. **Balloons and string not included.**

GENERAL USE: User screws on supplied dispensing adapter to top of cylinder at valve. Advancing adapter allows gas to flow. Reversing adapter shuts gas off. User attaches balloon open end to dispensing adapter and fills balloon.

RECYCLING: The empty cylinder is made from steel and should be recycled with ordinary household recyclables. An "EMPTY" label is provided inside every package for the user to apply to exterior of the empty cylinder. This is crucial for recycling personnel to know that the cylinder no longer contains pressure.

HELIUM: 90.5% Air: 9.5%
